

cloudLibrary Installation | Computers

1. Download the cloudLibrary Application

Windows

Open an internet browser and go to: <https://www.yourcloudlibrary.com/windows>

Scroll down and click on the “Download the Windows App” button

The installer will begin to download. You may need to type in your computer password to approve the download.

Open your “Downloads” folder and click on the most recent item, called “cloud library installer”

Double click on the installer to begin.

Click “next” or “finish” through all the steps.

The app has been installed. Search for “CloudLibrary” on your computer to open it.

Mac

Open an internet browser and go to: <https://www.yourcloudlibrary.com/mac>

Scroll down and click on the “Mac OSX.8.x or newer” button

The installer will begin to download. You may need to type in your computer password to approve the download.

Open your “Downloads” folder and click on the most recent item, called “cloud library installer”

Double click on the installer to begin.

Click “next” or “finish” through all the steps.

The app has been installed.

2 | Sign in with your library card

Search for “cloudLibrary” on your computer to open it.

Select your country and state from the dropdown menus.

Select your library and **enter your library card number**. You should only have to manually enter this number the first time that you use the app.

You are ready to use cloudLibrary.

**For full instructions based on your specific device, go to www.yourcloudlibrary.com and select your device under the “Get the App” tab.*
