cloudLibrary Installation | Phones & Tablets
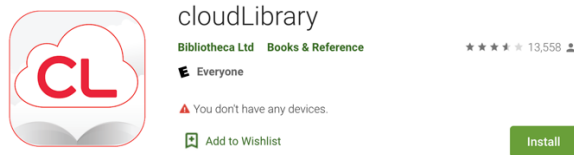

1. ## Download the cloudLibrary App

    ### Android
    Open up the **Google Play Store.**

    Type "cloudlibrary" into the search bar.

    Click on the following result:

    Click **Install.**

    Go back to the **Home screen.**

    ### Apple iOS (iPhone or iPad)
    Open up the **App Store**

    Type "cloudlibrary" into the search bar.

    Click on the following result:

    Click **Install.**

    Go back to the **Home screen.**

2 | Sign in with your library card

Tap on the cloudLibrary™ icon to open the app from your home screen.

Select your country and state from the dropdown menus.

Select your library and **enter your library card number**. You should only have to manually enter this number the first time that you use the app.

You are ready to use cloudLibrary.

*For full instructions based on your specific device, go to www.yourcloudlibrary.com and select your device under the "Get the App" tab.
